

HELP SAFEGUARD SOUTH CAROLINA'S CYBERSPACE

October has been proclaimed Cyber Security Awareness Month to help promote public awareness of computer safety essentials and the important role that South Carolinians play in safeguarding the State's cyberspace.

As part of this effort, the South Carolina Information Sharing and Analysis Center (SC-ISAC) and Division of the State Chief Information Officer (CIO) cordially invite you to attend the 2007 Cyber Security Awareness Seminar, to be held on Thursday, Oct. 25, at the South Carolina State Museum in Columbia, S.C.

This event, which is being offered free of charge, is scheduled from 9:00 a.m. until 3:30 p.m., and will include in-depth discussions from experts on a variety of current and future cyber security concerns. In addition, a continental breakfast and lunch will be provided for all seminar participants.

Seating is limited so register today by visiting the [Cyber Security Awareness Seminar Web page](#).
